Here are the answers to some of the 33 questions:

Thirty Three Questions on Computer Vocabulary

Click [here](#) to hear some answers to some of the 33 questions recorded by previous Summercore participants

1. One byte = character or symbols of text and equals 8 bits
2. One [K](#)= one thousand bytes and is metaphorically the same as one page of text
3. One [meg](#) = 1000K and is metaphorically the same as a Harry Potter Book (1000 pages)
4. One [gigabyte](#) = 1000 megs/1 billion bytes and is metaphorically the same as 1000 books/1 library
5. One [terabyte](#) = 1000 gigabytes (Library of Congress)
6. A [floppy disk](#) holds about 1.4 meg which is the same as 1,400K or 1.4 million bytes
7. A typical memory stick holds 64 meg (yes, they come in many sizes)
8. The word blog first used in 1999 is short for weblog
9. A CD ROM holds about 650 meg which is the same as 650,000 K (hint: click [here](#) to see a pile of 650 floppy disks)
10. A [DVD](#) disk holds _____ between ___ and ___ gigabytes
11. [RAM](#) stands for Random Access Memory and refers to working memory
12. ROM stands for Read Only Memory and refers to frozen/built-in memory
13. Larry Bird's initials (LB) in ASCII code are 76 and 68
14. Zip Drives, Digital Still Cameras and Memory Sticks tend to use the Universal Serial Bus (USB) port
15. Digital Video Cameras use the Firewire port
16. Baud Rate refers to the rate of travel of the data on the cable and is expressed in 14,400 bits per second
17. A File Server is a computer faraway that has files you can access and allows you to store files as well
18. The Red Sox last won the World Series in 2004
19. An MP3 file is a compressed audio file and typically might be 3 megabytes
20. A new type of Web site that allows users to easily add or edit content is called a WIKI (hint: "quick" in Hawaiian)
21. When you aggregate dozens of blogs into one, you are using the technology involving RSS (Real Simple Syndication) feeds
22. The Rule of 3 refers to the following 3 reminders when saving: descriptive file name and correct storage destination and _ correct folder.
23. The fourth tip when saving is _____
24. The point size of ___ equals 1 inch
25. Use ___ space(s) between sentences

26. Pushing the [button](#) repeatedly is a sign that you have not reached computer maturity
27. Two PC suffixes or extensions are ___ and ___
28. Audio files that Web users subscribe to are called _____
29. HTML stands for H_____ T_____ M_____ L_____
30. A computer virus can be defined as _____
31. Two popular [graphic file types](#) are _____ and _____
32. Two popular audio file types are _____ and _____
33. Larry Bird's [uniform number](#) in binary is _ _ _ _ _

Here are some of the answers to the 33 Questions.
The most important question is number 33 therefore we will give that answer first.

- #33. Larry Bird's uniform # is 00100001.
- #13. Larry Bird's initials in ASCII code is 7666.

Now the rest of the answers:

1. One byte = __1 character or keystroke__ and equals __8_ bits
2. One K= __1000 bytes_____ and is metaphorically the same as __one page of text double-spaced_____
3. One meg = __1000 K_____ and is metaphorically the same as __1000 pages or a Harry Potter book_____
4. One gigabyte = ___1000 megabytes_____ and is metaphorically the same as ___1000 books_____
5. One terabyte = _1000 gigabytes or the Library of Congress_____
6. A floppy disk holds about 1.4__ meg which is the same as _1400__K or _1,400,000_____ bytes
7. A typical memory stick holds __64_____ meg (yes, they come in many sizes)
8. The word blog first used in 1999 is short for _weblog_____
9. A CD ROM holds about 650__ meg which is the same as __650,000_ K (hint: click here to see a pile of 650 floppy disks)

[Click here to hear some answers to some of the 33 questions recorded by previous Summercore participants](#)

1. One byte = _____ and equals __ bits
2. One K= _____ and is metaphorically the same as _____
3. One meg = _____ and is metaphorically the same as _____
4. One gigabyte = _____ and is metaphorically the same as _____
5. One terabyte = _____
6. A floppy disk holds about ___ meg which is the same as ___K or _____ bytes
7. A typical memory stick holds _____ meg (yes, they come in many sizes)
8. The word blog first used in 1999 is short for _____
9. A CD ROM holds about ___ meg which is the same as ___ K (hint: click here to see a pile of 650

floppy disks)

10. A DVD disk holds _____ between ___ and ___ gigabytes
11. RAM stands for R___ A___ M_____ and refers to ___
12. ROM stands for R___ O___ M_____ and refers to ___
13. Larry Bird's initials (LB) in ASCII code are ___ and ___
14. Zip Drives, Digital Still Cameras and Memory Sticks tend to use the _____ port
15. Digital Video Cameras use the _____ port
16. Baud Rate refers to _____ and is expressed in _____ per second
17. A File Server is a _____
18. The Red Sox last won the World Series in ___
19. An MP3 file is _____ and typically might be _____ megabytes
20. A new type of Web site that allows users to easily add or edit content is called a ___ ___ I (hint: "quick" in Hawaiian)
21. When you aggregate dozens of blogs into one, you are using the technology involving _S_ feeds
22. The Rule of 3 refers to the following 3 reminders when saving: ___ and ___ and ___
23. The fourth tip when saving is _____
24. The point size of ___ equals 1 inch
25. Use ___ space(s) between sentences
26. Pushing the _____ button repeatedly is a sign that you have not reached computer maturity
27. Two PC suffixes or extensions are ___ and ___
28. Audio files that Web users subscribe to are called _____
29. HTML stands for H_____ T_____ M_____ L_____
30. A computer virus can be defined as _____
31. Two popular graphic file types are ___ and ___
32. Two popular audio file types are ___ and ___
33. Larry Bird's uniform number in binary is _ _ _ _ _

Winners over the Years

11. RAM stands for Random___ Access_____ Memory_____ and refers to ___
12. ROM stands for R___ O___ M_____ and refers to ___

Here are answers to some of the 33 questions!

- 1) one byte is one keystroke and equals 8 bits.
- 2)1 K equals 1,000 bytes and is metaphorically the same as a sheet of paper.
- 3) 1 meg = 1,000 K and is metaphorically the same as Harry Potter book.
- 4) One gigabyte is 1,000 mbs and the same as 1,000 books or a small library (a billion bytes)
- 5) One terabyte is 1,000 gbs like the Library of Congress.
- 6) A floppy disk holds about 1.4 mbs which is the same as 1400 Kb or 1,400,000 bytes.
- 7) A typical memory stick holds 64 megs.
- 8) The word blog is short for weblog
- 9) CD ROM holds 650 mgs or 650,000 K
10. DVD holds files between 4.7 - 17 GBs
- 11.RAM stands for random access memory and refers to temporary memory that can be changed. It is there when the computer is on.
12. ROM stands for read only memory and is the frozen memory or the DNA of the computer.
13. Larry Bird's initials in ASCII is 7666.
14. Zips, digital cameras and memory sticks use the USB port.
15. Digital video cameras use the firewire port (on MACS) and USB on PC's.

16. Baud rate is the rate at which the data travels over the cable and is expressed in bits per second.
 17. A file server is a remote computer where files are stored.
 18. Red Sox last World Series win was 2004.
 19. An MP3 file is compressed file and it is usually 3 MBs.
 20. New type of web site that lets you easily add or edit content is called a WIKI.
 21. When you aggregate dozens of blogs into one, you are using the technology involving RSS (real simple syndication).
 22. The rule of 3: Use a descriptive file name, save onto the correct disk and save within the correct folder.
 23. Fourth tip: Know the file type.
 - 24) 72 equals 1 inch
 25. Use one space between sentences.
 26. Pusing the space bar or tab key or return key repeatedly is a sign that you have not reached computer maturity.
 27. Two PC suffixes or extensions are .doc and .wpg
- 29) Hyper Text Mark up Language

Here are answers to some of the 33 questions!

- 1) one byte is one keystroke and equals 8 bits.
- 2)1 K equals 1,000 bytes and is metaphorically the same as a sheet of paper.
- 3) 1 meg = 1,000 K and is metaphorically the same as Harry Potter book.
- 4) One gigabyte is 1,000 mbs and the same as 1,000 books or a small library (a billion bytes)
- 5) One terabyte is 1,000 gbs like the Library of Congress.
- 6) A floppy disk holds about 1.4 mbs which is the same as 1400 Kb or 1,400,000 bytes.
- 7) A typical memory stick holds 64 megs.
- 8) The word blog is short for weblog
- 9) CD ROM holds 650 mgs or 650,000 K
10. DVD holds files between 4.7 - 17 GBs
- 11.RAM stands for random access memory and refers to temporary memory that chan be changed. It is there when the computer is on.
12. ROM stands for read only memory and is the frozen memory or the DNA of the computer.
13. Larry Birds initials in ASCII is 7666.
14. Zips, digital cameras and memory sticks use the USB port.
15. Digital video camers use the firewire port (on MACS) and USB on PC's.

16. Baud rate is the rate at which the data travels over the cable and is expressed in bits per second.
17. A file server is a remote computer where files are stored.
18. Red Sox last World Series win was 2004.
19. An MP3 file is compressed file and it is usually 3 MBs.
20. New type of web site that lets you easily add or edit content is called a WIKI.
21. When you aggregate dozens of blogs into one, you are using the technology involving RSS (real simple syndication).
22. The rule of 3: Use a descriptive file name, save onto the correct disk and save within the correct folder.
23. Fourth tip: Know the file type.
- 24) 72 equals 1 inch
25. Use one space between sentences.
26. Pusing the space bar or tab key or return key repeatedly is a sign that you have not reached computer maturity.
27. Two PC suffixes or extensions are .doc and .wpg
28. Audio files that web users subscribe to are called podcasts
- 29) Hyper Text Mark up Language
- 30) A comuter virus can be defined as something strange that interrups your files, passed on by networking and email.
- 31) 2 popular graphic files .jpg and .gif
- 32) Two poular audio type files are .mp3 and .wav
- 33) Larry Bird's uniform number is 00100001

answers to some of the questions:

One byte = __1keystroke__ and equals __8__ bits

One **K**= _1,000 bytes_____ and is metaphorically the same as ___1 page
double-spaced_____

One **meg** = _1,000 K_____ and is metaphorically the same as __1 Harry Potter book_____

One **gigabyte** = _1 billion bytes or 1,000 Megs_____ and is metaphorically the same as
__1,000 Harry Potter books, small library_____

One **terabyte** = _1,000 gigabytes = 1,000 libraries_____

A floppy disk holds about _1.4__ meg which is the same as 1,400__ K or _1,400,000__ bytes

A typical memory stick holds __32, 64, 125, 256, 512, etc_____ meg (yes, they come in many
sizes)

The word blog first used in 1999 is short for _web log_____

A CD ROM holds about _650__ meg which is the same as _650,000__ K (hint: click [here](#) to see a
pile of 650 floppy disks)

A **DVD** disk holds _____ between __ and __ gigabytes

RAM stands for R__ A_____ M_____ and refers to __

ROM stands for R__ O__ M_____ and refers to __

Larry Bird's initials (LB) in ASCII code are __ and __

Zip Drives, Digital Still Cameras and Memory Sticks tend to use the _____ port

Digital Video Cameras use the _____ port

Baud Rate refers to _____ and is expressed in _____ per second

A File Server is a _____

The Red Sox last won the World Series in __

An MP3 file is _____ and typically might be ____ megabytes

A new type of Web site that allows users to easily add or edit content is called a ___ _ I (hint: "quick" in Hawaiian)

When you aggregate dozens of blogs into one, you are using the technology involving _S_ feeds

The Rule of 3 refers to the following 3 reminders when saving: ___ and ___ and ___

The fourth tip when saving is _____

The point size of ___ equals 1 inch

Use ___ space(s) between sentences

Pushing the _____ [button](#) repeatedly is a sign that you have not reached computer maturity

Two PC suffixes or extensions are ___ and ___

Audio files that Web users subscribe to are called _____

HTML stands for H_____ T_____ M_____ L_____

A computer virus can be defined as _____

Two popular [graphic file types](#) are ___ and ___

Two popular audio file types are ___ and ___

Larry Bird's [uniform number](#) in binary is _ _ _ _ _
