Summercore 2010 in Virginia is at Cape Henry Collegiate School in Virginia Beach. The school is a 20 minute drive from the Norfolk International Airport. Follow the lead of these 102 teachers from Virginia schools between 1985-2009 and come to Summercore 2010!

June 14-18, 2010

Summercore

Virginia Beach VA

www.summercore.com

A Unique Five Day
Marathon in Hardware,
Software and
Humanware featuring
Web 2.0

The total cost of Summercore is \$1133, with \$333 the deposit at time of application and the balance of \$800 due by June 1. Go to www.summercore.com to signup or for more info. If you have any questions, e-mail Steve Bergen at sb@summercore.com or sb@cstorefront.org or you can call 781-953-9699.

“I really could not be more pleased with the last four days at Summercore. While I am still very much of a novice, I am not as intimidated as I was before coming to Summercore and thanks to Summercore I now feel that I have enough confidence and sufficient foundation at least to manipulate this powerful technology and try different things when I am stuck.”

--Billy Peebles, former Headmaster, Powhatan School, VA

“The Summercore Primer is excellent, and I look forward to referring to it often and sharing some of its useful advice with my colleagues.”

--Ann Robb, English Teacher, Powhatan School, VA

“What a fantastic experience. I want to get home to try all this out. I will spend the rest of the summer in front of a computer.”

--Linda Miller SC'99 Harrisonburg VA Eastern Mennonite School Middle School Science/Social Studies

“I thought I was ONLY coming to learn how to use a Mac. I saw the light of the purpose of Summercore. I saw the light (la la la...add your own music)...I saw the light.....that is [I have begun to learn how to REALLY teach.....ask the students questions that will help them find the answer themselves. Don't TEACH...(fill them with knowledge) but help them learn how to teach themselves. You two are the most incredible, dynamic educators I have ever met. I have come away with far more than just new computer skills to take back to my school and classroom. Also, there are no mistakes, but opportunities to learn.”

--KC Dickman Marshall VA SC'99 The Hill School K-3 Computers and 3rd Grade T.A.
